ACCESS Enrichment Program

The ACCESS Enrichment Program aims to provide a menu of activities to students that integrates arts, community, culture, education, sports, & science. ACCESS's model was created to specifically provide enriching extracurricular opportunities for children living in the South Valley. Through this program, South Valley children can receive opportunities to develop their artistic and intellectual abilities, gain health, emotional, and psychological benefits, develop a greater understanding of their responsibility to their community, and connect their culture to everyday life. Furthermore, the breadth of experiences is essential for helping students think about future career paths.

Now being offered at RFK Charter Middle School and Solare Collegiate Charter School.
