Parent Organization

ACE Leadership High School

The Mission of ACE Leadership High School is to engage young people who love to design and build things with the skills they need to become leaders in the architecture, construction, and engineering professions. We serve young people who have limited means to have successful careers by caring for their intellectual, physical, and emotional well-being as students. With recent innovations in renewable energy, we are hoping to provide our students the opportunity to explore these professions and help grow New Mexico's local economy after graduation.
