

SHARE new mexico™

Living With Snakes

In order to *change how people view and treat snakes*, we give presentations on snake behavior and conservation in southwestern New Mexico.

For adults, we give a multimedia presentation that runs 30-45 minutes with a question and answer session following the presentation (approximately one hour total). Our presentations for children are a little more informal (see below). Depending on interest and availability, we may also bring educational literature, campaign-related petitions, eco-friendly fundraising items, and live snakes.

For descriptions of the following presentations, please visit our [website](#).

- Living With Snakes
 - Rattlesnake Family Life
 - The Social Lives of Snakes
 - JUST FOR KIDS: The Secret Lives of Snakes
