Parent Organization

Alas de Agua Art Collective

Alas De Agua Art Collective is an intersectional grass roots space providing resources and opportunities for artists of color, native artists, immigrant, undocumented, and queer artists who have historically and currently been marginalized and not afforded the same resources. We remove barriers and go around them. We believe in abundance where there seems to be scarcity. We believe in compassionate conflict. We help support artistic visions that are counter narratives to dominant culture and believe diversity is key in creating community.
