Parent Organization

Albuquerque ER & Hospital

Our mission is to provide the residents of New Mexico, and its surrounding communities, with access to concierge-level emergency care 24 hours a day, 7 days a week. Frustrated by the current state of emergency care, our founding physicians sought to solve the issues that are typical of large, congested hospitals. Our brand of inclusive and compassionate emergency care became the remedy.

We provide immediate access to the best physicians, nurses, and support staff our community has to offer in a calming, upscale setting. Our specifically dedicated staff and resources allow you to be seen, treated, and on your way home in thirty minutes or less. And because all of our physicians are also owners, you'll receive a higher level of personal attention and care.
