All Aboard Earth

All Aboard Earth is an ecological sustainability, health & wellness program for 6-12th grade students delivering education about pressing environmental themes with the use of music, dance, film & visual props. These presentations will preface a mentorship program with students to create community change through multi-media arts-based environmental activism projects.

Parent Organization

All Aboard Earth

All Aboard Earth was created to respond to the challenge of implementing cultural change for sustainable living. Our greatest inspiration has been the discrepancy between scientific information calling for humans to drastically change their behaviors and contrasting emotional resistance to these suggestions. We found that by accessing the human heart through multi-media and performing arts, we could dramatically improve

the willingness of individuals and communities to make changes for the best.
