Moreover, as a community partner we seek out opportunities to provide support to community members that serve to enhance their lives. We recognize that improving the conditions of a community may take many forms so we focus in areas such as economic development, education and cultural forms of betterment. AHF is one of six entities within Atrisco Companies, which all have missions of furthering opportunities for NM. With deep roots in central NM dating to the 17th century. Over the past decade, the Atrisco Companies have expanded services far beyond the borders of the land grant, aiming to better the lives of all New Mexicans, a state that struggles with poverty, inequality, and uneven availability of educational and career opportunities.
