## Trail Ambassadors

We are working with the National Park Service and the US Forest Service to develop trails within the Valles Caldera National Preserve and nearby lands to provide non motorized access for the American people to these spectacular public lands. We will provide volunteers the opportunity to work on trails, improve trails and educate youth and others about the benefits of trail use.

## Parent Organization

**Caldera Action**

Our mission is to foster active citizen participation in the restoration, protection, and appreciation of the Valles Caldera National Preserve, Bandelier National Monument and other nearby lands for the long-term benefit of the place itself, the American public, and visitors from around the world.
