

Native American Youth Builders 2

This project addresses school readiness challenges by providing age-appropriate educational programs and language skill development to three-and-four-year-old Native American students. It is our goal to prepare them for successful entry into school at the kindergarten level. This project also involves college preparatory seminars for older secondary school students which are intended to increase competency and skills in challenging subject matters, such as math and science, as well as enable these students to transition successfully into postsecondary education. NAYB has set a number of ambitious yet attainable objectives and outcomes that will demonstrate the efficacy of our unique, culturally-focused collaborative approach towards educating low-income, under-performing Native American children.
