Pregnancy options and ultrasound

1. First, let us do a free test and see if you are actually pregnant. Our medical professionals will do a confidential health assessment and an ultrasound.
 2. If you are pregnant, what happens next is up to you. You deserve accurate information to make the best choice for your future.
 3. Whatever decision you make, you are not alone - we CARE. We have resources and programs to help you have a healthy future and rebuild your plan.
