

NM Community Data Collaborative

NMCDCC hosts an open data website with predominantly geospatial datasets, visualized in web maps, dashboards, and other user friendly tools on current public health and social determinants topic areas. Visit the website by clicking this URL <https://chi-phi-nmcdc.opendata.arcgis.com/>.

NMCDCC provides:

- Esri ArcGIS Pro software licenses.
- Esri ArcGIS Online (AGOL) accounts.
- Data hosting and management.
- Web map and application development.
- Learning opportunities.
- Customized ongoing GIS assistance.
- Support with data set acquisition.
- Data and visualization consultation.
- Access to up-to-date, quality, and authoritative data already processed and visualized.
- Access to a variety of user-friendly templates to tell a community-oriented story using data.
- Opportunity to contribute your qualitative data in the form of discussions on any data product.

Request support now by clicking this URL survey123.arcgis.com/share/4cf9f71377f04e8ab6e76c03ae9c013f.

Envisioning a New Mexico where community members truly own their data by facilitating the equitable exchange of data.
