Space Girls Summer Camp

This is a STEM (This is a Science, Technology, Engineering and Math) related program. Calling all young women! Have you even wondered about space exploration? Ever dream about being an astronaut? Join us as we explore the science and technology of space exploration. From engineering structures and spacecrafts to planning nutritious and delicious food for astronaut meal, we will explore the wide variety of elements needed for a successful mission to space. Space Girls is a week long summer-camp program designed to get elementary and middle-school aged girls interested in space science.
