Children of Light & Love

We are a group of families, that are preparing to go Self-Sustaining/Self-Sufficient. We believe in Holistic Medicine, and have no affiliation with any particular group or sect. We are returning to our Ancestral Roots & Lineage, by becoming one with the Creator: taking on the actions of growing our own foods (plant-based & animal livestock), through the use of Solar Energy, Greenhouses, & Wells. We would like to build our own shelters, on the land that we have purchased & live in a cooperative community.

Details

Ages: All ages

Parent Organization

Cherana L Warren-Crain

This is an unorthodox group. We are opening our land to families & individuals from throughout the United States of America, that are willing to promote, build, and maintain a self-sufficient way of life. Becoming one again with the Creator & with Nature; while working to protect the environment around us.
