Intensive Sober Living

A four-month program that is a sober living free of charge. The only requirement is to work on your recovery, such as IOP, peer support services, meetings, etc. The program's purpose is to give people time to get on their feet and put their recovery first without having to worry about daily life stressors yet, such as working, paying bills, and try to balance it all at once. All you need is willingness and the clothes on your back!

Choice Recovery Path

Optimism might be the most important recovery tool there is! At Choice Recovery Path, we know it can be taught – one choice, one little success at a time. Choice Recovery Path helps people build the tools they need to make changes in their lives. We believe that many people, regardless of their education or skill level, need training and tools if they are going to do things differently. We know that everyone is capable of living a life they can be proud of, but very few people can magically summon the resources to do that just by stopping old behavior. But we notice that when people have the tools and resources need, they are happy to do the work to improve their circumstances. At CRP, we offer IOP, peer support services, counseling, a medical provider, and intensive sober living program for people suffering from substance use who are ready to make the leap and try something different. Come learn how to create a life that you are madly in love with!
