Men's Home Program

Christian Outreach Ministries Men's Home is faith based, a non denominational, and nonprofit organization. Our Men's Home has a 24-hour supervision with one on one counseling. We recommend six-months to one-year commitment, though we cooperate with whatever time the court deems necessary.

As long as the men show interest and commitment to be worked with, as well as the desire to turn their lives around, Pastor Joe Diaz, has committed himself to work one on one with each man that comes into the program. During their stay at the Men's Home the men will be taught a disciplined life style, through personal counseling. Marriage and family counseling is also available to the men that are in the program.

Christian Outreach Ministries Men's Home contains high moral standards, with a strong spiritual concept, which we feel is necessary in building strong family values and outstanding citizens. All men, will be required to follow the Men's Home guidelines. If, the men are court ordered into the program, they will also have to follow any other instructions that the court orders during their stay at our men's home.

This rehabilitation program has been very successful in the past with those men who had the desire to be worked with and make lifelong changes. We have seen men become better respectable individuals in society after completing this program.
