

SHARE new mexico™

FUSE Makerspace

The FUSE Makerspace is a community center with tools that allow members to design, prototype, and create manufactured works.

We partner with Central New Mexico Community College (CNM), giving our members access to affordable, high-quality classes as well as mentoring from other makers and community members.

We believe in fostering the startup spirit in Albuquerque's Innovation District by creating jobs and supporting businesses in the downtown community. We are invested in stimulating creative thinking and economic growth in Albuquerque and the surrounding areas.

MAKING A COMMUNITY

Meet other makers, entrepreneurs, students and hobbyists to work on your projects with mutual support and inspiration.

We also partner with local businesses and organizations to develop tailored events and training opportunities in the community and for our local school programs.

WHAT WE OFFER

- A safe, professional facility for manufacturing your ideas.
- Equipment and tools for precision and large-scale projects.
- Offices for rent to foster the development of your small business.
- A collaborative, creative working environment.

Parent Organization

CNM Ingenuity, Inc.

CNM Ingenuity Inc. (CNM Ingenuity) is the enterprise arm of Central New Mexico Community College (CNM). CNM Ingenuity's mission is to promote the public welfare and prosperity of the people of New Mexico and to foster economic development in both the private and public sectors of the state. CNM Ingenuity supports a new approach to workforce development that provides accelerated educational and training opportunities in key workforce areas and cooperative ventures that foster job creation in the region. CNM Ingenuity programs have been designed with the specific needs of underrepresented populations in mind, including wrap-around support services, making it easier for these groups to receive and engage in the training required to become employed in family-sustaining career-track jobs. CNM Ingenuity targets underrepresented individuals including women, people of color, and veterans in technology and entrepreneurship programs for recruitment and enrollment.
