Comadre A Comadre

Our Comadre Peer Patient Navigators and Peer Educators are breast cancer survivors and are trained to navigate, lend support and teach breast health classes in the community, because they “have been there!” The Comadre a Comadre Program is a continuous research study that evaluates the impact of support, education and navigation.

All our services are free and offered in Spanish and English! We help you no matter what your citizenship status!

Parent Organization

Comadre A Comadre

The Comadre a Comadre Program's mission is to empower the lives of Hispanic/Latina women and their loved one's through advocacy, support, education, navigation, and resources for breast health and breast cancer. Our Comadre Program Mentors and Peer Patient Navigators are breast cancer survivors and are trained to access services and lend support, because they "have been there" .
