

"Groundwater", "Stormwater", "Youth" and "Big Picture" Campaigns

CCW has 4 campaigns we will work on during FY2016:

1. The Groundwater Campaign focuses on protecting groundwater of the sacred ancestral homeland of the Pueblo Peoples, by insisting on valid sampling techniques, advocating for protective regulatory mechanisms., and educating impacted communities.
2. The Stormwater Campaign protects the Rio Grande and downstream communities by advocating for strong Clean Water Act coverage and enforcement and engaging stakeholders.
3. The Youth Campaign empowers diverse youth through education, arts, and activism.
4. The Big Picture Campaign reaches out to decision makers and stakeholders with a positive vision for change.
