Home Grown Network for Childcare

Home Childcare Providers in Grant County are invited to join our monthly meetings, where they can connect with fellow home-based childcare providers to share experiences, knowledge, and best practices. These gatherings offer a valuable platform for learning from guest speakers and industry experts on relevant topics, ensuring participants stay updated on the latest regulations and trends in childcare. We are dedicated to advocating for the challenges faced by home-based childcare providers, working tirelessly to ensure their concerns and needs are heard by policymakers. Together, we can influence positive change in the childcare industry. Additionally, members can access our comprehensive library of resources, including tips, templates, and guidelines to enhance their childcare business. Through our online forums and discussion boards, providers can connect with others and receive support and guidance from experienced mentors in the field. This program is designed to support and empower home childcare providers, fostering a community of shared knowledge and advocacy.
