Seniors helping Seniors

We are a group of seniors with some basic home repair skills, and we want to share them. For the past 25 years, CREW (Community Renovation Empowering Women) has focused on building and renovating primarily for agencies serving women and children. We have taken on large projects, such as gutting and re-doing bathrooms for Peanut Butter & Jelly, creating a beautiful conference room for Enlace, and remodeling the Laguna battered women's shelter. Now we need to take on smaller projects and have decided to focus on helping Seniors with their home maintenance and repair.
