The CIT ECHO

[The CIT ECHO](#) is a collaboration with [UNM's Project ECHO](#), the [Albuquerque Police Department](#), and CIT Inc. to bring specialty training, support, and knowledge in CIT policing and behavioral health to front line law enforcement personnel. It does this by engaging law enforcement and providers in a continuous case based learning system and partnering them with specialist mentors at an academic medical center or hub. This is continues ongoing videoconferencing training and does not replace a traditional CIT course.

Parent Organization

Crisis Intervention Team Inc.

The Crisis Intervention Team, Inc. (CIT Inc.) is a non-profit, [501\(c\)\(3\)](#), organization in Albuquerque, NM founded by a detective and a physician to help avoid and minimize crisis through various, innovative

programs focused on raising community standards around behavioral health and crisis intervention.

We are advocates for the [Crisis Intervention Team](#) model in communities and strive to enhance programs that are established and beginning. We believe in an open collaboration with all parties to bring together communities to better the lives of the people living there.
