Parent Organization

Del Corazon Hospice

Hospice isn't a place... it's a philosophy of care. Hospice care is comfort care so that patients may live their last days as pain-free and comfortable as possible. The hospice philosophy of care is focused on managing symptoms so that a person's last days may be spent with dignity and quality as they are surrounded by their loved ones.

The Del Corazon Hospice Care Team believes in caring for the whole person, and that's why we address the physical, emotional, and spiritual needs of our patients. To ensure our commitment to the highest quality of care, the care team designs an individual plan of care to meet the specific needs of each of our patients.
