

SHARE new mexico™

El Pueblo Health Services

Primary health care. We provide comprehensive family health care to the residents of Sandoval County and surrounding communities: family practice, non-surgical women's health care, newborn care, minor surgeries, preventative services, immunizations, family planning, diabetes prevention, and access to the State Breast and Cervical program. We have on site xray services and some in house lab services. No one is denied access to care based on their inability to pay.
