Caterpillar Club - Early Literacy Storytime

Caterpillar Club is a free program for children ages 0-5, accompanied by a caregiver (it is not a drop-off program). Join us for early literacy music, storytime, hands on science, technology, engineering and math, and arts and crafts. Caterpillar Club is a great way to meet other parents with young children, connect to parenting support from Taos First Steps parenting program, and help your child get ready for school. Afterwards, you can stop by the library for reading material for your little one! This program is supported by Brindle Foundation.
