## EVCA's Mid School College and Career Readiness Program

The EVCA Mid School College and Career Readiness Program believes success begins with college awareness. During the mid school years, it's important for students to know that college could one day be an option for them and ensure that high school is a productive time for college preparation.

While most students aspire to go on to college, many don't know what it takes to reach their goal. We look to The Naviance College & Career Readiness Curriculum for mid schoolers, which is a blended learning solution for students in grades 6-8 that helps them develop critical non-cognitive skills and college knowledge that instills confidence so they'll persevere to reach their long-term college and career goals.
