Home School Exploration Series (K-8th Grade)

This is a STEM (This is a Science, Technology, Engineering and Math) related program. The Home School Exploration Series is a semester of weekly, hour-long experiential science, technology and art programs facilitated by Explora educators. Each program takes an inquiry approach to learning and involves every student in active exploration of physical materials. Our Exploration programs are benchmarked to the standards established for relevant grade levels by the New Mexico Public Education Department.
