From Death Row to Dogs of Service

After basic manners training, dogs that have been rescued from high-kill facilities are placed into a customized training program for service, therapy, comfort and other needs that suit the dog's specific talents. Interested individuals who require a service dog apply to the program to participate in the training of the dog, once the dog and potential human are matched.

Parent Organization

Extraordinary Dogs Inc.

The mission of Extraordinary Dogs Inc. is to rescue dogs from the death row of high-kill facilities, and through customized training, provide them with the skills and training to help them become extraordinary canine friends for life to their adopted family, as well as partners and helpmates as dogs of service and therapy.
