First Born® Program (FBP)

Through weekly home visits, families identify their personal goals and learn to build upon their strengths, recognize challenges and opportunities for growth, and establish healthy relationships whose effects will last a lifetime. At the core of the program is the conviction that a healthy pregnancy and healthy baby are not only critical to the immediate well being of mother and child but are also basic to the long-term health and success of family and community. The most effective and efficient unit for building a competent society is a bonded, resilient and competent family.

Details

Restrictions: Family must be expecting or have a child under 5 years old
