Food 4 Kids School-Based Pantries

School-based pantries offer families consistent access to healthy foods in a familiar and convenient environment. Available foods for delivery include pantry-staples, fresh produce, protein, and dairy items. Site coordinators distribute food according to their community's needs. To receive food from the school pantries, an individual must be employed at the school or a child must attend the school. Schools with pantries are currently located in Santa Fe, Rio Arriba, and Taos counties.
