

## Future Focused X3

Future Focused X3 is designed for equity, providing high-quality, paid internships for marginalized high school students, most of whom would not otherwise have access to professional workspaces. X3 partners with schools to place students in local workplaces for paid work-based-learning experiences. The internships provide a career-building alternative to fast food or low-wage jobs many high schoolers must take to support their families. Program staff work closely with interns, school staff, and employers to ensure a good experience for all. The program launched in 2017 and is growing every year.
