Behavioral Health Services (BHS)

Gila Regional Medical Center's (GRMC) Behavioral Health Services (BHS) provides 24-hour comprehensive, effective treatment in a safe environment using an integrated treatment model which supports a healthy recovery. Through the Gila Regional Emergency Room (ER), psychological evaluation is available for all ages. We provide 24-hour crisis stabilization through GRMC's Emergency Room. The clinical staff of GRMC's Behavioral Health Services are pleased to offer confidential assessments for the purpose of determining need for mental health services.

The Inpatient Program is available for adults 18 and over who are in need of acute psychiatric treatment. It focuses on stabilization, maintaining health and safety and enhancing the patient's skills and resources to foster independence, self-confidence and self-reliance. We also provide coordination for follow-up care and treatment based on the patient's individual needs.
