

## Girls Who Code Clubs

Girls Who Code Clubs are FREE after-school programs for girls in grades 3-5 or 6-12 to use computer science to impact their community and join our sisterhood of supportive peers and role models. Clubs can be hosted in schools, universities, libraries, community centers, faith-based organizations, or nonprofits. For reference, below are a few documents with program details. For more information on starting a Girls Who Code Club, visit our website: [girlswhocode.com](http://girlswhocode.com). (The best time to apply to start a club is before the school year starts. This is to ensure you are fully prepared before the actual launch date!). To find out if there is already a Girls Who Code Club in your area, visit <https://girlswhocode.com/locations/>, answer "I am a:" and enter your address or your city/town, and you will find any clubs in your vicinity.

- **[Girls Who Code Clubs Overview](#)**: Check out what our Clubs are all about
- **[Starting a Girls Who Code Club](#)**: A step-by-step guide to launching a Club
- **[Clubs Community Partnerships Overview](#)**: Learn about our partnership benefits!
- **[Informational Webinars](#)**: Learn more about Clubs and how to start one—or 5!
- **Clubs Fund**: All Clubs with 3 girls enrolled are eligible for \$300 grant
- **Free Books**: For our elementary school clubs (grades 3-5), you will receive 5 free copies of our nonfiction book, [Learn to Code, Change the World](#) or fiction series (TBA). Every enrolled participant will also receive her own free copy.

## Parent Organization

## **Girls Who Code**

Girls Who Code is the international nonprofit working to close the gender gap in technology. We work with educators, librarians, community leaders and nonprofit professionals to launch FREE Girls Who Code Clubs. So far we have reached over 185,000 girls in all 50 states and several US territories. We are also launching internationally starting 2019-2020 to the UK, India and Canada.
