## Global Santa Fe

Formerly known as the Council on International Relations, Global Santa Fe has grown rapidly in recent years, both expanding and enhancing its activities. Our activities are designed to stimulate dialogue within our community about current foreign affairs issues and help educate members, students and the community about current foreign affairs issues that affect the United States--to become more responsible global citizens. Specific activities include the Global Citizen Summit, our community education initiatives, along with special events and programs for international visitors. Each activity provides fun, social exchange and a broadening of international knowledge and understanding. International visitors reach GLobal Santa Fe through an arrangement with the U.S. State Department and other organizations; we regularly host over 300 such visitors annually with targeted meetings and discussions on a wide variety of subjects. CIR volunteers set up and participate in these activities. Also, with the aid of volunteers, we provide home stays, home hospitality (dinners) and receptions for the international visitor leaders.
