

SHARE new mexico™

Guadalupe County Health Council

County & Tribal health councils, established by the New Mexico legislature, help communities organize to identify and address local health priorities. Reaffirmed in 2019 by the County and Tribal Health Care Act ([HB 137](#)), health councils are mandated to identify community needs, resources, and priorities; evaluate the community's system of care with an equity lens; and support education, programming and advocacy efforts to improve community health.
