Support and Protection for Abused Children

We provide assistance and protection for abused children We stabilize families with children who have suffered from child-abuse.

We take them through the court process so that they are not intimidated. We are in court assisting the family and are on call 24 hours per day.

We use the motorcycle biker persona to empower abused children and their families. We bring them into our organization as our little brothers and sisters. When our new family members go to court we are there with them. We give them emotional strength to rebuild their lives. We focus on stabilizing the family with activities. We are that source in society, shining a light on children and families that have been overlooked in the shadows. Only one child in ten reports their abuse. We are there for the child and the family.

We are often the only source of support
