Community Development

Our community development work strengthens neighborhoods in both Albuquerque and Santa Fe, using different strategies tailored to the strengths and challenges of each place. For example in Santa Fe, where the housing market is extremely tight, we build new developments that include both homes and businesses to increase proximity, walkability and neighborhood vibrancy. In Albuquerque, we buy and restore empty residential and commercial buildings and then get homeowners and businesses back into them. Our redevelopment efforts have a catalytic impact, attracting new investment into neighborhoods that have experienced decades of disinvestment.
