Summer and Year Round Education Program

Horizons Albuquerque is a transformational, community-centered education program proven to close the opportunity gap.

Students attend a tuition-free, intensive summer program on the campus of an independent school in the Albuquerque area and receive additional support throughout the school year. In small classes led by professional teachers, students dive into a rich curriculum focused on literacy, STEAM, Social-Emotional Learning, and enrichment. Swimming and other confidence-boosting activities break down barriers to success and expose children to new opportunities.

Students begin their Horizons journey as early as the summer after kindergarten and return to the program each year through high school, building lasting relationships with their teachers and peers, and developing life skills essential for success.
