## Hospice Compassus

We work to provide the greatest possible comfort and care for those who experience one of life's most intimate and challenging moments. Provides hospice services to relieve symptoms, manage pain and give emotional and spiritual support. Hospice care affirms the belief that it is important to make every moment of life as meaningful as possible, from the first days of a life-limiting illness to the last - to validate the quality rather than quantity of life - and to provide care to the patient and the family, reflecting a living expression of love, warmth, and compassion.
