## Home Rehabilitation Program

The Home Rehabilitation Program offers two options to assist Las Cruces families with low and moderate-incomes:

Owner-occupant families may secure a zero-interest loan or grant to fund needed home improvements that address health and safety issues; or

The Mobile Home Ramp Installation Program enables low and moderate-income residents who live in a mobile home and have a qualifying disability to have an ADA-approved wheelchair ramp constructed at their home.

For eligibility information, visit: <http://www.las-cruces.org/departments/community-development/housing-and-family-services/home-rehabilitation>
