

Perinatal Depression Resource Assistance

Once we established our non-profit organization, and learning more about perinatal depression, we took another leap of faith. I decided to create a documentary, Kassy's Hope (My Life 4 Yours) to break the silence of a mental health disorder that can occur at any point during the perinatal period (during pregnancy up to the 1st year of baby's life). Unfortunately, the stigma that can come with having these types of feelings from mothers-to-be can far outweigh reaching out to professionals or even loved ones for help. When individuals call us, we do an intake to see what resources best fit them. We follow up in 2 weeks to see if they are doing okay.
