La Buena Vida Ranch

La Buena Vida Ranch provides individual and group cognitive behavioral therapy for youth patients using different methods that have been proven to be effective to overcome a variety of challenges. The main purpose of our program is to help our patients have the ability to create the lives they want without being restricted by their disabilities. In our program we incorporate activities like farming, painting and acting, sensory integration therapy and fitness routines to help patients overcome barriers created by behavioral health issues. La Buena Vida Ranch will also have educational classes and conferences for parents provided by experts in the field to educate them on how to manage and treat the patients outside the program.
