La Casita Preschool

Teaching, guiding, and overseeing children ages 3-6 in a preschool and kindergarten setting serving about 50 children during regular school and summer session. La Casita uses a child-directed, play-based approach, modeled after the schools in Reggio Emilia, Italy. We help each child acquire socialization skills, become independent critical thinkers, and develop respect for themselves and others. At La Casita we strongly believe in PLAY. Play is essential for children to learn. There are many types, all of which are valuable for young children. The best learning experiences for children happen when children choose what they want to do. This is called free or self-directed play.
