Las Cruces Academy

Our primary program is full-day education for gifted and advanced students who are underserved in most schools nationwide. We offer them a supportive, challenging academic environment in small classes (15 or fewer students), emphasizing math, science, and languages students learn English, Spanish, and Chinese every day while incorporating social studies, art, and music. Our students come from widely diverse ethnic and social backgrounds. Students benefit from visits to cultural resources weekly and from guest lectures on science and world cultures, as well as hands-on demonstrations.

Parent Organization

Las Cruces Academy

LCA is a private secular K-12 school, reaching underserved gifted and advanced children of all socioeconomic levels, emphasizing math, science, and languages, with outreach programs to adults and other schools. Students thrive with challenges in small classes and a sense of community and belonging.
