

McKinley County DWI Program

The local DWI program allows for multi-pronged approach to reducing DWI, alcoholism, and alcohol abuse. We know that many things by themselves help (treatment and enforcement for example), but using multiple strategies to combat the problem has a much greater effect. Therefore, local DWI Programs can fund different components (Prevention; Screening; compliance monitoring/ tracking; Coordination, planning and evaluation; Treatment. The local DWI Program must provide services throughout the county, to reach as many people as possible).
