Medicare Options

Medicare Options serves those individuals ages 65 and older, ensuring they receive the essential health benefits they've earned throughout their lives. Moreover, it's a crucial support for those under 65 living with specific disabilities, providing them access to vital healthcare services. Our specialization fills a significant gap in the system: assisting those in re-entry from post-incarceration. Transitioning back into society comes with myriad challenges, and accessing healthcare shouldn't be one of them. We are dedicated to guiding these individuals through the complexities of Medicare, ensuring they obtain the healthcare benefits they deserve. Our mission is not just about health coverage; it's about restoring dignity and offering a hand of support during a pivotal phase of reintegration.
