## **MedMark Treatment Centers - Roswell**

Our medical team at MedMark Treatment Centers in Roswell uses medication-assisted treatment (MAT) with methadone to treat addiction to fentanyl, heroin, prescription painkillers, and other opioids. In addition to preventing the euphoric effects of opioids, methadone helps relieve withdrawal symptoms.

Methadone has been proven as an effective treatment for opioid addiction for more than 50 years. Our providers will work with you to ensure our methadone treatment meets your unique needs, so you can focus other parts of your personalized treatment plan and make lasting changes to support your recovery.

we are here to offer the support services you need to maintain your recovery, including:

- Medical assessments and testing
- Case management services
- Coordinated pregnancy treatment
- Addiction and relapse prevention education
- Referrals to community resources
- Discharge planning and support
- Guest medication services
