## Einstein Express

Einstein Express benefits students enrolled in grades 1-12 at attend Title 1 schools within the Albuquerque area by providing bus fare to and from their school, as well as educational programming at the Museum. Through Einstein Express, our Museum wants to expose these students to the history of STEM and its potential career opportunities, as well as help teachers build their STEM curricula within their classrooms. Our Museum's STEM programming takes pride in serving low-to-moderate income students from APS Title I Schools through its yearly *Nuclear Science Week* and *Discover STEM Week* field trip programs, continuing its 50 year pursuit to inspire the scientists and engineers of tomorrow.

## Parent Organization

### National Atomic Museum Foundation

Our mission is "to serve as America's resource for nuclear history and science." The Museum presents

exhibits and quality educational programs that convey the diversity of individuals and events that shape the historical and technical context of the nuclear age.
