Acute Inpatient Psychiatric Program

Our **Adolescent Acute Inpatient Psychiatric Treatment Program** is a specialized and intensive level of care designed to provide immediate and short-term psychiatric treatment for adolescents experiencing severe mental health crises or acute psychiatric symptoms. This program are typically utilized when an adolescent's safety is at risk or when their symptoms are significantly impairing their ability to function in daily life. The adolescent acute inpatient program provides a highly structured and secure environment with 24/7 monitoring and supervision by a multidisciplinary team of mental health professionals.
