Parent Organization

New Mexico National Board Certified Teacher Network

Our mission is to promote Accomplished Teaching throughout New Mexico. We do this by advocating for leadership opportunities for NBCTs, promoting and educating teachers about the National Board's Body of Knowledge, supporting candidates through the National Board Professional Teaching certification process and celebrating when achievement is attained. By offering opportunities to all constituent groups, we aim to support and recognize all New Mexico NBCTs in all school districts in the state and at the state legislature.
