Support Linkages Program

Our linkages program engages multidisciplinary teams and involves both individuals and their communities. Leveraging Comprehensive Community Support Services (CCSS), we aim to empower, facilitate recovery, and enhance the overall well-being and integration of those we serve, ultimately fostering independence and reducing stigma associated with mental health and substance use issues. CCSS refers to a multifaceted and person-centered array of integrated services within the realm of mental health and substance use care, intended to assist individuals facing these challenges within their local communities. CCSS encompasses case management to coordinate various resources, crisis intervention for immediate support during critical situations, skill-building, therapy, medication management, peer support, housing assistance, access to social services, education, and advocacy.

New Mexico Recovery Coalition

New Mexico Recovery Coalition, NMRC, is a compassionate startup nonprofit organization and Southwest New Mexico's exclusive non-government boots-on-ground provider driving harm reduction services, rapid HIV/HCV/syphilis testing, basic street medicine, limited mobile crisis interventions, and other key mental health advocacy initiatives into our rural and frontier communities.

NMRC promotes using an anti-stigma, community-based, Mutual Aid approach to Syringe Access Services, Overdose Prevention, and Referrals to resources in our community.

?NMRC is staffed by Certified Peer Support Workers, Community Health Workers, and other Comprehensive Community Support Workers. Everyone on staff has Lived Experience with using drugs, loving someone who uses drugs, or navigating the systems and resources needed when one is actively using or in recovery.

?NMRC promotes health equity through safer drug use, overdose prevention, and helping our participants and community members to take an active role in creation of policies, procedures, and activities within our organization and others throughout the community.
